

Undercover Game Words List

250 printable Operative and Mole word pairs for teens and adults ages 13 and older. Review the vocabulary for your group.

How to use

This printed example uses Similar Word with one Mole. Give the Operative word to most players and the Mole word to the hidden player. Take turns giving one-word clues, then vote for the player who seems suspicious.

50	Naan	Roti	Medium

Quick host guide

1. Choose a pair that fits your group. Easy and Family offer everyday vocabulary for ages 13 and older.
2. Keep both words secret. Most players receive the Operative word; one player receives the Mole word.
3. Ask each player for one spoken word as a clue. Good clues prove knowledge without saying the word directly.
4. For this Classic example, discuss and vote once, then reveal. Catching the Mole wins for the Operatives; otherwise the Mole wins. Play again with a new pair.
